BACKGROUD INFO:

Our project is about to show a model town, where we would try to show the view of a modern city. There will be some building with different colors which are properly aligned and also there will be some trees which are green, lamp post in roadside areas. On the road, there will be some colorful cars which will be maintaining traffic signals where there will be three color's light (Green, Red, Yellow) and also maintain their rows. There will be a zebra crossing on the road. On the day, there will be a sun and some white clouds and at night there will be some stars.

Sketch:
